

Utah Weatherization Program Notice

Effective Date 11-7-2012

UWPN # 12-6a

Subject: Program Guideline Update

Basis: Program Amendment

Purpose: The major reason for this update is changes that were necessary because of comments from Department of Energy on our Grant Application. This is also the reason for no comment period since approval of the Grant Application was conditional on these changes being made.

Scope: This notice will affect all future clients from the effective date.

This notice will affect all work that begins production after the effective date.

It is recommended that if a change can be implemented to work that has not been reported as a completion the Agency should do so.

Responsibilities:

Local Agencies – Review and implement changes as applicable.

Pay Particular Attention To:

- ASHRAE 62.2 requirement in home with solid fuel (2012-030)
- MHEA Settings (2012-031)
- Questar Rebates (2012-033)
- Health & Safety materials and labor (2012-045)
- Thermostats with new furnace installs. (2012-051)

State WAP Staff – Amend the State Guidelines and applicable Attachments

- Changes 2012-017 to 033, 2012-035 to 2012-052
